

New Zealand (from Cocoro text)

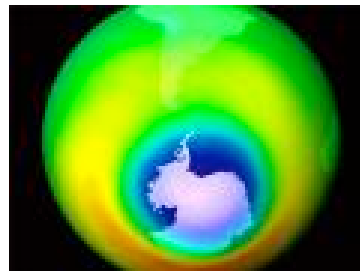

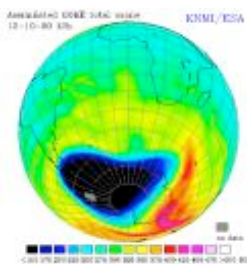

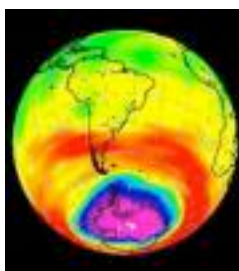

New Zealand is one of the most countries in the world. The nature, plants and animals are very because it is an island. There are no predators or even so it is very safe for camping. There are everywhere! (There are more than people!)

It used to be a British colony, but before that only the lived there. They are very proud of their culture and many of the cities have names.

I went there a few years ago and took my bicycle. I got a terrible . Many people told me it was because of , but I didn't know about it before I went. It was a really bad sunburn! We must stop !

Today we will read a text from one of the Cocoro DJs named Alec. He talks about the Maori culture. He says that people respect the Maori culture in New Zealand, but he is worried that people in Japan don't respect Japanese culture. Japanese people are their own ! He also hates the way some people in Japan that a problem . We need to communicate and talk about problems! He likes Japan and wants Japan to be Japan!

There are 2 quizzes on quizlab about Alec's text. Look at the Cocoro book and do the quizzes.

(The hole in the ozone layer.)
